

## Combine your visit to Floriade Expo 2022 with a visit to Almere

Discover everything else Flevoland has to offer. Where else would Floriade Expo 2022 be than in this province? Nowhere is there more room for new ideas than here, in this man-made province built from nothing, well over four metres below sea level, protected by kilometres of dikes.

# Discover more

Can't get enough of Floriade Expo 2022's green world? Why not get to know Almere, the youngest city in the Netherlands and the beating heart of Flevoland. A green city and the place where the new Hortus green urban district will arise during Floriade Expo 2022. Architecture fans will love the city. You can book a guided tour or wander around amidst the greenery and architecture yourself. Almere is a great example for many cities around the world when it comes to creating new nature, modern architecture and the manner in which the population is involved in deciding on the design of their own city.

## Flevoland, made by and for people

## Conceptualised land, wild land

Be amazed by the conceptualised nature in the largest wetland area in the Netherlands, Nationaal Park Nieuw Land. Take a walk through the most extensive, uninterrupted deciduous woodland in the Netherlands. All created on the drawing board and now a wild polder or area of reclaimed land where nature is left to its own devices. Almere's 42 kilometre coastline is home to various (urban) beaches. View the unique landscape from the 400 kilometres of dedicated bike paths. If the weather is fine, you can have a swim at one of the recreational lakes you'll encounter. And, who knows, perhaps you'll spot some wild horses, deer, foxes or even a sea eagle.

## Architecture and landscape art

Curious?

No landscape in the Netherlands is as 20th century as that of Flevoland. The contemporary cities in the polder are partly architectural museums that world famous architects such as Rem Koolhaas helped to build. Experimental designers show their work here. And nowhere on the planet can you view so much spectacular land art, all in a day.
